

Health Care Reform: Patient Protection and Affordable Care Act Seminar With United States Congressman Tim Murphy

The Patient Protection and Affordable Care Act is expected to have a major impact on our society as a whole. Some of the impact has already begun in the form of new taxes. But what more is to come? If you are a senior citizen, a retiree, a small business owner, a taxpayer. If you are a single parent, an uninsured spouse or someone on disability; do you know what changes are in store for you?

The Musuneggi Financial Group and Single Steps Strategies invites you to an evening with Congressman Tim Murphy as he explains the basics of this landmark legislation as well as the impact it will have on you and your future health care and long term care planning.

Congressman Tim Murphy: In January 2009 Congressman Tim Murphy began serving his fourth term in Congress representing the 18th District of Pennsylvania, encompassing the South Hills of Pittsburgh and portions of Washington and Westmoreland counties.

Congressman Murphy relies on his three decades as a child psychologist to advocate for meaningful reforms in the U.S. healthcare system. As one of only a handful of members of Congress with a background in healthcare, Tim quickly established himself as a leader on the issue. He is Co-chair of the 21st Century Healthcare Caucus, Mental Health Caucus, GOP Doctor's Caucus, and Men's Health Caucus, giving him a platform to educate other members of Congress and the public on ways to make healthcare more affordable and accessible for all families.

Legislation accomplishments include authoring the Seniors Access to Mental Health Act to increase Medicare's mental health coverage benefits for seniors to equal its regular healthcare coverage. The legislation became federal law as part of the Medicare Improvements for Patients and Providers Act, on July 15, 2008.

He also introduced the Mental Health Security for American Families in Education Act and passed legislation into law to get college students suffering from depression or other mental illnesses the help they need before tragedy strikes.

Before coming to Congress, Congressman Murphy served in the Pennsylvania State Senate from 1997-2002. There he penned the state's historic Patient Bill of Rights and increased funding for medical research, while consistently supporting responsible fiscal management of government to promote job creation and reduce the tax burden on families.

He earned a bachelor's degree from Wheeling Jesuit University, a master's degree from Cleveland State University, and his PhD from the University of Pittsburgh.

Date: Wednesday, September 8, 2010

Time: 6:00 PM

Location: The Crowne Plaza Hotel
164 Fort Couch Road
Bethel Park, PA
