

Internship Program Mission

The mission of The Musuneggi Financial Group Internship program is to provide college students with entrepreneurial experience within a financial planning practice. The Musuneggi Financial Group, LLC is an independent, family-owned financial services group located in Scott Township, PA. To learn more about our firm, please visit our website www.mfgplanners.com.

Internship Opportunities

Student interns will spend their time in three focus areas of the financial planning practice: operations, marketing, and financial planning (para-planning). They will learn how the areas of operations, marketing, and financial planning (para-planning) have an impact on the firm's daily operations. Student interns will also receive basic training that covers financial concepts, products, services, and software.

Our goal is to provide a robust understanding of how a financial firm works and practical experience with key related skills/tasks including: business writing and communications, process and cost analysis, client relationship management, intrapersonal communication skills, website and social networking account maintenance, branding, client reviews, case presentations, and research.

The internship opportunity can last for a semester or an academic year. To earn three college credits, students will need to dedicate 10-15 hours per week to their internship. Students are responsible for identifying and fulfilling their school's requirements for credit-bearing internships. Students need to be currently enrolled in a local university or college and must have reliable transportation to and from our office.
